What are Comparable Products MB (Mini Browsers) and How to Use them:

Comparable Products Mini Browsers are components that may be inserted into pages as tables that compare your products to competitors' products. Each product may include an option to add to cart, request a quote, or place a bid. The following is an example of a Comparable Products MB.

Chart below shows examples of cost on popular Orthopedic Surgical Instruments. Contact Millennium for prices on instruments needed for your facility.

Vendor	Number	Millennium Number	Description	Retail Cost	Millennium Net Cost

How to Create Comparable Products MBs:

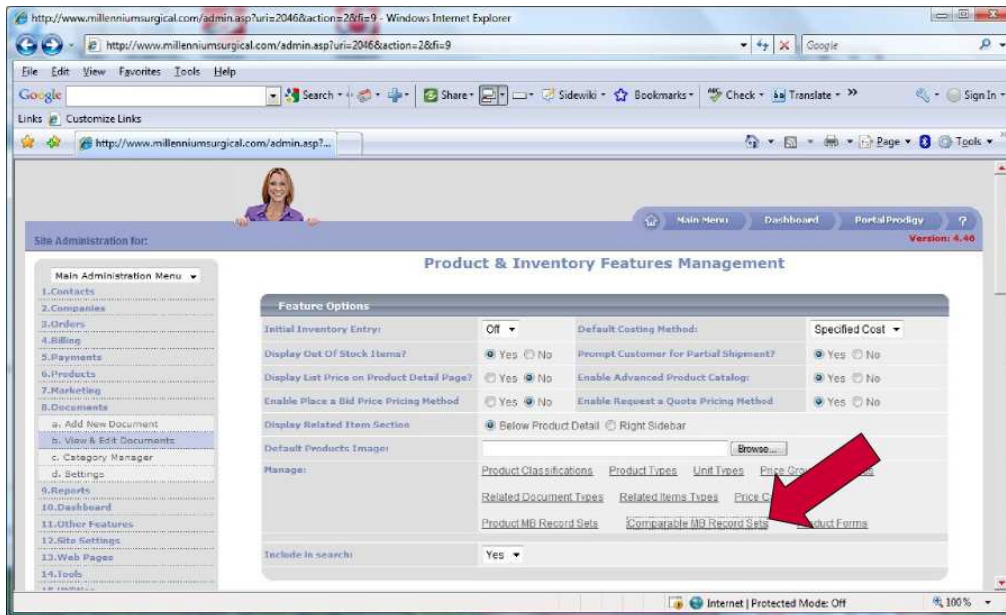

Prerequisite: the following instructions assume that you have created Item records for your products and that you have configured the Comparable Items feature and created Comparable brand records.

There are two parts to creating Comparable Products MBs. The first part is to define a name for each Comparable record set. Record sets are groups of products that will be displayed together. The second part is to enter comparable product information for each of your items that you want to compare and to specify which Comparable record set (name) it belongs to.

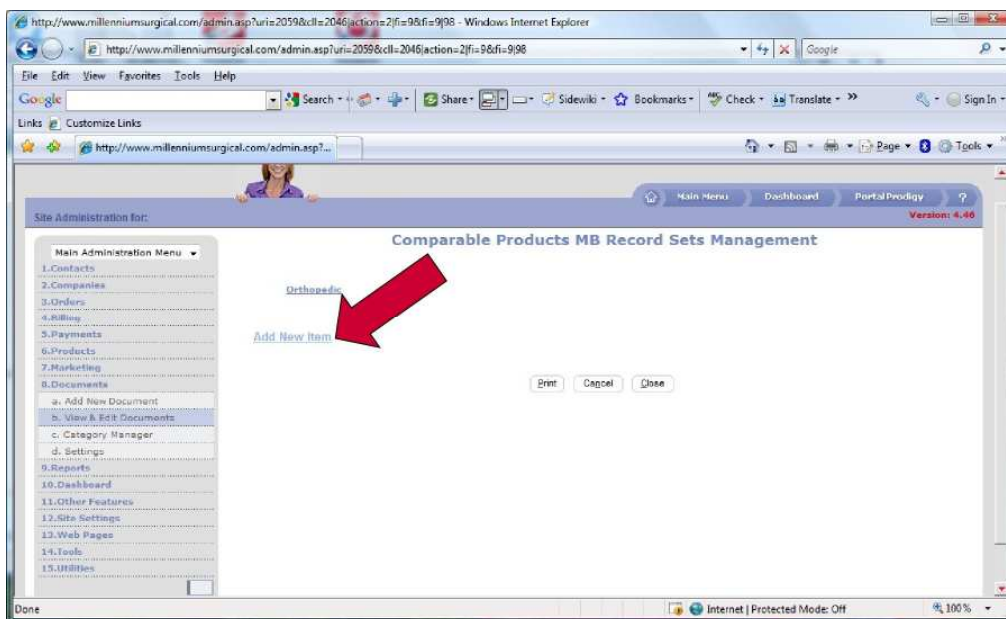

Steps for defining Record Set names:

- 1) Go to Product & Inventory Features Management.
- 2) Click on "Comparable MB Records Sets".

3) In Comparable Products MB Record Sets Management click on “Add New Item”.

4) In the Description field enter a name for the record set then click Save.

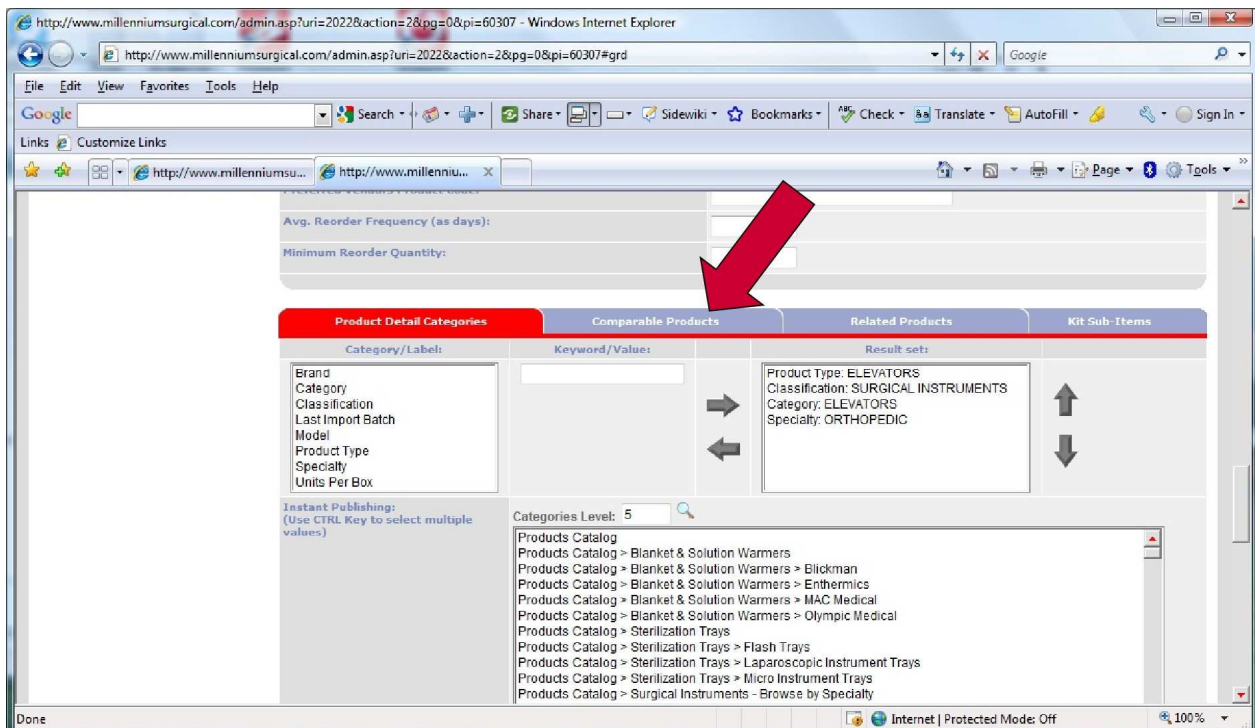

5) Repeat steps 3 & 4 for each record set (group) that you need.

6) When finished adding record sets, click Close to exit.

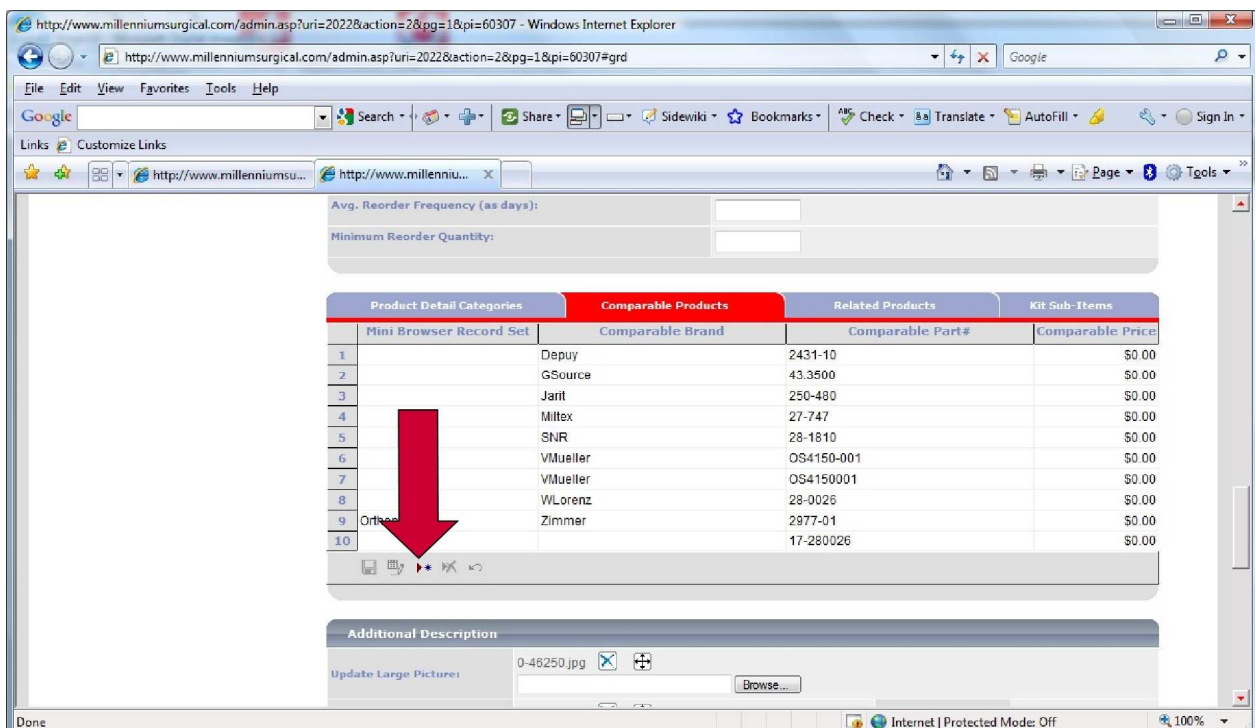

Steps for entering Comparable products and assigning to record set names:

- 1) Retrieve your product item in Item Management.
- 2) Scroll to the multi tab section of the Item Management page and click on the Comparable Products tab.
